### V. BACKGROUND INFORMATION:

The approval and signature of this IGA was originally presented to the Commissioners in 2016. The IGA was then sent to CDOT for final signatures. Design for the bridge continued and Road and Bridge was given authorization to bid the project in September of 2018. In November of 2018, Road and Bridge submitted a grant application for additional construction funds based on an updated engineer's estimate. Road and Bridge was awarded the grant and a new IGA needed to be signed showing the additional funds. The additional monies above the grant will need to be covered by the county. The successful bidder on the project was Duckels Construction with a total bid of \$1,173,637.50

The original grant for this bridge was applied for in 2013 and awarded \$861,320.00 for the bridge replacement. Design of the bridge was completed in late 2016 and Right of Way acquisition was completed in 2017. In 2018 an application was submitted for an additional \$204,318.00 for a total project cost of \$1,065,638.00.

CDOT has informed Routt County that the original IGA signed in 2013 then amended in 2018 with additional funds needs to be revised to have a clean IGA with no amendments.

The email correspondence from CDOT has been attached.
