N/A

ROUTT COUNTY BOARD OF COUNTY COMMISSIONERS
AGENDA COMMUNICATION FORM

V. BACKGROUND INFORMATION:
<p>The PC's that are currently in use for the Communications Radio System were installed in 2012 and utilize the Windows 7 Operating System. The State of Colorado will perform a statewide radio system update in September, which includes software updates. The September software update requires any that is PC connected to the State radio network be more current, and have the Windows 10 operating system. We were not notified of this issue until May.</p> <p>The existing PC's, just like the current Emerald Mountain DTR equipment, will not work after the September update due to their age and being obsolete equipment. Without this PC and Windows operating system update, RCC will not have connectivity to the state DTR radio network, nor to the radios in the field after September. The attached quote provided by Motorola Solutions includes pricing based on the NASPO ValuePoint pricing agreement, with an additional discount.</p> <p>These PC's will be added to the inventory and the replacement schedule so, in the future, this will be an anticipated and planned expenditure.</p> <p>This purchase request follows the policy and procedure cited in the Routt County Purchasing Manual 6th edition, section 6.3, "Colorado State Pricing Agreement may be used for a purchase of any size or amount; however any purchase over \$20,000 must be approved by the BCC prior to issuing a purchase order".</p>
VI. LEGAL ISSUES:
None
VII. CONFLICTS OR ENVIRONMENTAL ISSUES:
None
VIII. SUMMARY AND OTHER OPTIONS:
Recommendation to the BCC to approve the State Bid Purchase and authorize the Emergency Communications Manager to sign the purchase order to purchase 5 replacement PC's for the Communications Radio System.
