

**NEEDS LIST AND MISSION LOAD DOCUMENT  
2018-19 SAR FUND  
END OF YEAR AWARD**

**DOCUMENTS PROVIDED/ UPLOADED**

**1. Calendar Year 2018 Mission Load Report:**

Definition of a mission as per 8 CCR 1307-1(2)(a) An Eligible Search and Rescue Mission: Mobilization of persons or agencies with specialized search and rescue skills authorized by a County Sheriff's Office or statutorily designated search and rescue political subdivision of the State of Colorado for the purpose of located or rescuing a person within the State of Colorado from an area beyond the boundaries of normally available emergency services.

One mission may last only a few hours or extend for several days/weeks. A mission is counted by a single incident and not the operational periods within a single incident.

Several lines have been provided in the document for specific mission types. A mission type is the subject's intended recreational activity that precipitated SAR services. Empty cells have been provided to input additional mission types not identified in the document. The mission count is an unduplicated count of SAR missions. Choose the single, most relevant category for the recreating mission type. Similarly, the in-county mission and out-of-county mission are also unduplicated counts. If a mission bordered your county or extended into another, choose either in-county or out-of-county but do not put the mission in both columns.

In the for Additional Information columns, Recovery (of a deceased individual) and D/A Related (Drug and Alcohol related - THC included), please put a number of missions by type for either or both, as applicable. These numbers may be duplicated with Mission Load Counts.

**2. Equipment and Training Needs List:**

The list of requested equipment and training should be based upon an assessment of needs for the County or associated SAR teams. Actual cost of items, not a guesstimate, should be used in the cost columns. Items should be prioritized by need. Awarded funds cannot reimburse counties for items purchased prior to the dated Intent to Award letter. Items may be purchased only after a county has received the Intent to Award letter that will be sent to counties in August.

Equipment Eligibility: In general, funds cannot be used to purchase equipment or training that can be acquired at no costs. **Equipment must be reasonable, necessary and operationally relevant for the Applicant's mission types.** Ineligible items include building construction or acquisition, and vehicles designed primarily for highway use.

Training Costs: In separate rows please indicate Training costs by line item (place training registration costs in one row and hotel costs for that training in the following row). Trainings must be relevant and specific to search and rescue functions. Trainings specific to traditional law enforcement, recovery, and legal investigations are also not an intended use of these funds.

# Colorado Search and Rescue SFY 2019 Application Needs List

County Name: Routt

Item Priority	Requested Item	Equipment/ Training	Unit Amount	Unit Cost	Total Cost
1	Arctice Cat M Alpha One Snowmobile	Equipment	2	\$15,000.00	\$30,000.00
