

We are requesting to add additional duties and responsibilities to the Line Cook to help with allocation of administrative/supervisor duties in the kitchen. This change is also necessary to fill leadership roles in the absence of either or both the Restaurant Manager or Assistant Restaurant Manager.

The increase of duties and responsibilities for a Lead Line Cook will allow the Restaurant Manager and Assistant Restaurant Manager additional time to focus on administrative duties during business hours instead of working additional hours.

Potential retention issues with experienced skilled Line Cooks who don't currently have opportunities to be promoted and compensated in line with their capabilities and leadership potential.
