

HAHNS PEAK AREA HISTORICAL SOCIETY 2021

January 9, 2022

The Hahns Peak Area Historical Society was able to open the schoolhouse, museum, pole barn and Wither cabin to visitors for the 2021 season. Although days open were limited to 3-4 days per week rather than seven, due to staffing shortage, a record number of visitors enjoyed visiting the buildings and learning the history of the area.

We were fortunate to welcome the addition of two new volunteers who took positions on our board, bringing us to a full board again.

Subject to Covid regulations, it is our hope to be open all week and to host the traditional Ice Cream Social and Arts and Crafts Fair in July 2022, while keeping volunteers and visitors safe and healthy.

Efforts to obtain historic designation for the Farwell Ditch continue. The application will be presented in April 2022. The Farwell family has been deeply involved in this, obtaining maps and photos and staying in touch with Historic Routt County.

The Wheeler family gathered in Hahns Peak in 2021 to celebrate the 100th anniversary of the Wheelers becoming homeowners in the area.

The Hahns Peak Area Historical Society has no outstanding grants, the last being closed out in 2019.

HPAHS continues to work diligently to accomplish our goal of historic education and preservation, receiving great community support and many volunteer hours for ongoing projects. Our museum personnel worked hard to open early in the Spring to give school children the opportunity to tour the museum and facilities which promotes cultural appreciation at an early age. Grants from MAHFAB have played a vital part in helping us do this, and have been gratefully received and acknowledged.

Again, we thank the MAHFAB Board for their continued efforts to support all of us working to preserve our precious history.

Sincerely,

Hahns Peak Area Historical Society Board
