

To all.

Please accept this email as an offer to help Routt County in the capacity of a hearing office for the county's property valuation appeal process. I would have the time capacity and I am very interested in serving in to assist the county in whatever capacity the county would prefer in this matter. That could include being the sole hearing officer or being one of a pool of hearing officers. The notice indicates that the option requires a knowledge of property valuation, appeals process, and to be able to handle the required hearing and administrative processes.

Serving as a Routt County Commissioner for 20 years, being a member of the Board of Equalization, and member of the Board of Assessment Appeal make me uniquely qualified to serve the county and County Commissioners' needs. I feel I have obtained a robust knowledge of the process of equalization and fairness that the statutes mandate. I would also have the time available to handle the needs both in an off re-assessment year as well as a re-assessment year. It should be also noted that I would have very few potential conflicts of interest.

Thanks for your time and consideration.

Respectfully

Doug Monger
