RE: Funding Request  
Regional Solar Agreement

Dear Commissioners Corrigan, Redmond and Melton:

The Town of Yampa (Town) has been working over the last couple years as a partner of the Ameresco Regional Solar Agreement. The regional project's fiscal agent is the City of Craig and the Department of Local Affairs (DOLA) has extended a very generous grant to this endeavor. The goal is to be able to provide partners a way to utilize a portion of solar energy for each municipality that will result in a savings to all entities involved. Being a small municipality with limited revenues our biggest goal is to provide services to our town and be able to show we are doing our part as the Town to be as economical and environmentally friendly as possible.

We are excited to continue with our progress for this much needed project. In our last regional meeting, it was advised that there was not enough allocated for the partners expenses. As you are aware we are also working on our Wastewater Treatment Facility and most of our disposable income is going towards matching grant funds and other expenses that are required to go along with that. We are requesting if Routt County can assist with the unexpected expense that came about this last meeting. The amount we are seeking assistance with is \$2200.00.

The County's assistance in this regard will support the Town's effort to continue to be successful in this project. As well, it will free up those funds for the Town to use for other expenses that are inevitably coming about with our Wastewater Treatment Facility.

We appreciate your consideration.

Sincerely,

A handwritten signature in blue ink that reads 'Sheila Symons'. The signature is written in a cursive, flowing style.

Sheila Symons  
Town Administrator/Clerk
