City of Steamboat Springs
and Routt County Commissioners

Dear City of Steamboat and Routt County Commissioners:

I have served on the Yampa Valley Airport Commission for the last three years. I would like to renew by appointment to the Commission at this time for another term. I am serving as a General Aviation Representative to the YVAC.

I own a hangar at the Steamboat Springs Airport (KSBS) and own and fly an airplane based there. I have been based at SBS with my own airplane for over 30 years and accumulated about 6,000 hours of flight time. I have also been involved with the local tenants and user group.

I am also very much aware of the issues at Hayden (KHDN) as I have flown into HDN in my own airplane and in and out of HDN on commercial flights. I have also delivered and picked up passengers at HDN who have visited the Yampa Valley. I know we are in the process of designing and obtaining funds for a needed terminal expansion at HDN. I have an Air Side security clearance at HDN and have used Atlantic Aviation, the FBO there.

I believe that the YVAC should do more to recommend approval or modifications to requests to the Routt County Commissioners and to be an advocate for airport upgrades at both facilities for the continued outside funds from the FAA and other funding opportunities. I also think the Commission can help with the relationship between SBS City run FBO and the user/tenants group.

Thank you for considering to re-appoint me to another term of service on the Yampa Valley Airport Commission.

Yours truly,

Les A. Liman
